It will use standard PV panels, and the life span would be around 10 years.

The County Cllr advised that the County Councillor elections will be going ahead this year and the County Council budget will be out soon.

The District Cllrs advised that Parish Councils need to be aware that if there is a contested election this year the Parish Councils will be expected to pay for this which could run into the £10,000's. They spoke about the roll out of the food waste.

They advised that as Winchester did not have a 5-year land supply for Gypsy and Traveller sites any that go through the planning process will more than likely be approved.

Cllr Simmons gave a verbal update on GrOWs, 41 Elm trees have been distributed and planted in the village. GrOWs would like to thank the Forest Partnership for these trees and they hope there will be more available next year.

There is a couple of gaps in the community garden which are being offered to residents. The first repair café is scheduled on 28 February and a litter pick on 7th March. The Clerk had circulated a report on how the Council could improve the Annual Parish Meeting to get more people attending to all prior to the meeting (Appendix 2).

There was some discussion on which of these would best suit the village and the council liked the idea of having community awards and having drinks and nibbles. The Chairman asked the councillors to think of some categories for the community awards.

Cllr Foster gave a verbal report to the council on the current SID and on purchasing a new SID. Cllr Foster advised that the current SID is no longer able to download the data but is still operational as a warning sign.

The SID could be upgraded with Bluetooth, which may help the with the data download problem and solar panel to power the unit. To upgrade to Bluetooth the SID would need to be sent back to the manufacturer. The cost to install Bluetooth is £450.00 plus VAT plus £55 postage each way, a portable solar panel is £875.00 plus VAT and a replacement sign would be £4,318.00 plus VAT.

Cllr Foster advised that he contacted some of the other Parish Councils in the area and some were using the Evolis Vision SID which was much lighter and easier to fix to the poles than the councils existing one. The cost of this unit is around £3,000.00, with an extra cost for a Solar unit and bracket. Cllr Foster was waiting for a rep to call him with the exact costs.

There was discussion on purchasing 3 new units for the village that could be put up around the village at the same time. There was discussion that if the village gates were not purchased that the money would be better spent on buying new SID's.

The Council asked Cllr Foster to cost out 3 new Evoilis SID's with solar panels and Bluetooth for the next meeting. The Council asked the Clerk to contact Hampshire Highways to grant permission for more sites for the SID's, particularly Longwood Road.
